DIPLOMA SUPPLEMENT

This Diploma Supplement model was developed by the European Commission, the Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended.

1. Information identifying the holder of the qualification

2. Information identifying the qualification

3. Information on the level of the qualification

4. Information on the contents and results gained

5. Information on the function of the qualification

6. Additional information

7. Certification of the supplement

8. Information on the higher education system in the Republic of Slovenia

It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided.

Where information is not provided, an explanation should give the reason why.

1. Information identifying the holder of the qualification

- 1.1. *Family name:* KAMNIK
 - 1.2. *Given name:* MATEVŽ
 - 1.3. *Date of birth:* 24 November 1987
 - 1.4. *Student identification number or code:* 22063790
 - 1.5. *Date of graduation:* 9 November 2015
-

2. Information identifying qualification

- 2.1. *Name of the qualification and title conferred (in the original language):*
Diploma:
PROFESOR ŠPORTNE VZGOJE (prof. šp. vzg.)
 - 2.2. *Main field(s) of study for the qualification, study programme, option:*
Education of teachers (physical education).
Academic study programme: PHYSICAL EDUCATION
Option of study – SPORTS RECREATION
The study programme was approved by the Council of Higher Education of the Republic of Slovenia on 18 April 2003.
 - 2.3. *Name of awarding institution (in original language):*
UNIVERZA V LJUBLJANI (UL)/UNIVERSITY OF LJUBLJANA, Kongresni trg 12, 1000 Ljubljana,
FAKULTETA ZA ŠPORT (FŠ)/FACULTY OF SPORT, Gortanova 22, 1000 Ljubljana.
 - 2.4. *Legal status of awarding institution:* public, university member
 - 2.5. *Language(s) of instruction/examination:* Slovene
-

3. Information on the level of qualification

- 3.1. *Level of qualification:* academic study programme
- 3.2. *Official length of study programme:* 4 years (240 credits)

Lectures:	1725 hours
Practical classes:	1295 hours
Seminars:	205 hours

Attendance on seminars and practical classes is obligatory. The study programme comprises also the obligatory practical pedagogical training in an optional subject and in the subject Didactics of the Physical Education.

Practical pedagogical training (PPT) in the Didactics of the Physical Education course is carried out at primary and secondary schools. It consists of 90 hours (6 ECTS) in four phases:

- observation practice under the guidance of teacher-educators – 10 hours;
- the induction into teaching – 4 hours;
- mentored PPT (teaching under teacher-mentors' supervision) held at primary (28 hours) and at secondary (28 hours) schools;
- a week of intensive PPT teaching under teacher-mentors' supervision at primary or secondary schools (20 hours).

After having passed all the exams and after having successfully completed practical pedagogical training, the student has to prepare and publicly defend diploma work.

Access requirements:

Conditions for the enrolment in the 1st year:

- a) matura examination at grammar school and the test of motor abilities or
- b) completion of any four-year secondary school before 01 June 1995 and the test of motor abilities.

If the enrolment is limited, the candidates will be selected on the basis of:

- the general achievement in the matura examination/final examination 45% of the points
- the general achievement in the 3rd and 4th years of grammar school/secondary school 15% of the points
- the achievement in the test of motor abilities 40% of the points

4. Information on the contents and results gained

4.1. *Mode of study:* full- and part-time

4.2. *Study programme requirements:*

The study programme leading to university education – PHYSICAL EDUCATION is a four-year programme; the first and second years are uniform for all students. Students gain basic knowledge necessary to continue their education. In the third year the study is divided into three options of study (sports training, sports recreation, special physical education) within which students select a selective subject. Contents of each option are held in the third and in the fourth year of the study.

Within the framework of an individual course of study and optional subject they are additionally qualified for the specifics of the selected area: The organization and methodical guidance of the composed process of training; the graduates develop special abilities and capabilities at a higher level of technically tactical achievements in sports – primarily those that are given more attention in Slovenia within the framework of physical education due to natural characteristics and tradition. The guidance of a sports recreational process connected with the useful use of free time, healthy way of life and the humanization of life and work in accordance with the wishes and needs of citizens, working environment, sports organizations and tourism.

The work with small children, where it is important to integrate and develop elemental forms of motion.

The work with people with motor disturbances, primarily school children, in order to enable the motor therapy in normal school environment. The graduate has knowledge about the compensation of negative effects of health and socio-pathological appearances in the youth and adults.

In order to be able to constantly connect theory with practice in their work, the graduates are taught to understand the scientific bases of the educational process and to creatively use the knowledge in different and changing circumstances. Therefore they master basic methods of research work, the basic methods for the evaluation of the achievements and their use in practice.

The lectures, the practical classes and seminars last 30 weeks of study year. They are arranged specific, depending on outdoor activities. Knowledge, gained in each particular subject is tested in accordance with the curriculum of the subject.

4.3. *Study programme details and the individual grades/credits obtained:*

Curriculum of the study programme PHYSICAL EDUCATION – sports recreation option

Year 1 (semesters 1 and 2)

<i>Subject</i>	<i>Lectures</i>	<i>Seminars</i>	<i>Practical classes</i>	<i>Credits</i>
Anatomy	60	-	30	7
Informatics in sport	30	15	15	5
Basic study of motor functions	45	-	60	7

Year 1 (semesters 1 and 2)

Subject	Lectures	Seminars	Practical classes	Credits
Psychology 1	45	15	15	5
Theory and methodology of track and field	30	-	75	7
Theory and methodology of basketball	15	-	45	4
Theory and methodology of swimming	35	-	70	7
Theory and methodology of sports gymnastics	30	-	75	7
Introduction to anthropological kinesiology	75	-	-	7
History of sport	45	-	-	4

Year 2 (semesters 3 and 4)

Subject	Lectures	Seminars	Practical classes	Credits
Physiology of sport 1	60	-	30	6
Sports medicine	45	-	15	3.5
Basics of sports recreation	45	-	-	3.5
Sports pedagogy 1	60	30	-	6
Mountaineering – summer part	20	-	35	4
Psychology 2	30	15	-	4
Skiing (Alpine and Nordic parts)	15	-	35	3.5
	5	-	35	3
Statistics in kinesiology	45	15	30	5
Theory and methodology of basketball	15	-	30	3.5
Theory and methodology of volleyball	15	-	45	4
Theory and methodology of swimming with selected water activities	-	-	40	3
Theory and methodology of handball	30	-	75	7
SELECTIVE SUBJECTS:				
Theory and methodology of football – men	15	-	45	4
Theory and methodology of sports rhythmic gymnastics – women	15	-	45	4

Year 3 (semesters 5 and 6)

Subject	Lectures	Seminars	Practical classes	Credits
Biomechanics 1	30	-	15	4
Didactics of physical education	30	-	45	6
Physiology of sport 2	30	-	15	4
Methodology in kinesiology	60	-	15	6
Basics of sports coaching 1	45	-	15	4
Mountaineering – winter part	5	-	35	3
Mountaineering – camping	5	-	35	3
Skiing (Alpine, Nordic)	15	-	40	4
	5	-	25	3
Sociology of sport 1	45	-	15	4
Theory and methodology of volleyball	15	-	30	4
Theory and methodology of dancing	15	-	45	4
SELECTIVE SUBJECTS				
Theory and methodology of football – men	15	-	30	3
Theory and methodology of dancing – women	15	-	30	3
SELECTIVE SUBJECT OF THE SPORTS RECREATION OPTION				
	60	30	30	8

Year 4 (semesters 7 and 8)

Subject	Lectures	Seminars	Practical classes	Credits
Didactics of physical education	30	30	45	8
Sports medicine 2	45	-	15	5
Organization of sport	45	15	15	6
Foreign language – English	60	-	-	5
COMPULSORY SUBJECTS OF THE SPORTS RECREATION OPTION:				
Medicine in sports recreation	60	-	-	5
Sports recreation and physiology of work	30	-	-	3
Sports recreation and environment	30	15	15	5
Sports recreation and psychology of work	30	-	-	3
SELECTIVE SUBJECT OF THE SPORTS RECREATION OPTION				
	210	25	15	20

Average grade: 7.89

Grade of diploma work: excellent (10)

Grading scheme:

- 4.4.
- 10 (excellent: outstanding knowledge with negligible errors),
 - 9 (very good: above average knowledge with negligible errors),
 - 8 (very good: good knowledge with few errors),
 - 7 (good: good knowledge with some errors),
 - 6 (satisfactory: knowledge satisfies minimal criteria),
 - 5-1 (unsatisfactory: knowledge below minimal criteria).

4.5. Overall classification of the qualification (in original language): 1.

5. Information on the function of the qualification

5.1. Access to further study:

Doctoral study programme.

5.2. Professional status:

Graduates are primarily qualified to accomplish tasks in primary, secondary and university education. They plan and carry out educational process of physical education and check its effects. These tasks are performed in various forms, usually differentiated by gender, and considering a different state of psychosomatic status of the school youth.

The graduates can seek employment in educational, medical, rehabilitation, sports, recreational, tourist, administrative and other organizations, companies, clubs, etc. which need their expert and organizational knowledge.

7. Certification of the supplement

- 7.1. Date: 13 January 2016
- 7.2. Signature: prof. dr. Milan Žvan
- 7.3. Official capacity: Dean
- 7.4. Stamp:

Information on the higher education system in the Republic of Slovenia

Higher education in Slovenia is regulated by the Higher Education Act (*Uradni list RS*, No. 32/12 – official consolidated text).

Higher Education Institutions

Courses of study are provided by public and private universities and their members – faculties, art academies and professional colleges. Private faculties and art academies as well as public and private professional colleges may also be organised as independent higher education institutions. Universities, faculties and art academies may provide all types of study programmes, while professional colleges may provide, as a rule, the first-cycle professional study programmes, but also the second-cycle programmes when meeting certain special requirements.

Pre-reform study programmes

According to the regulation in force prior to the Act Amending Higher Education Act (*Uradni list RS*, No. 63/04), the higher education system offered two types of undergraduate study programmes: *academic study programmes* (4 to 6 years) and *professional study programmes* (3 to 4 years). The postgraduate study programmes in place prior to the reform were as follows: *specialisation study programmes* (1 to 2 years), *master of science or arts study programmes* (2 years) and *doctoral study programmes* (4 years after completion of an academic study programme or 2 years after completion of a master study programme). The *European Credit Transfer and Accumulation System* (ECTS) has been compulsory since 2002. Studies are organised on a full- or part-time basis.

Access requirements

Access to academic study programmes is still open to holders of a *matura* certificate, a *final examination* certificate, obtained prior to 1 June 1995, or a *vocational matura* certificate, obtained during or after the 2001/02 academic year plus an *additional examination* in one of the general *matura* subjects. Access to higher professional study programmes is open to holders of the *matura* certificate, the *vocational matura* certificate or the *final examination* certificate of the four-year higher secondary or equivalent programme. Access to specialisation study programmes is open to holders of a *diploma obtained in an academic or higher professional study programme*. Access to master's study programmes is open to holders of the *diploma obtained in academic study programme*, exceptionally and subject to certain additional requirements also to holders of the *higher professional diploma*. Access to doctoral studies is open to holders of the *diploma in academic study programmes* or to holders of the *master's study programme diploma*.

Transfer. Transfers between the aforementioned study programmes are possible until they run out and when meeting the requirements prescribed by the Criteria for transferring between study programmes and by individual study programmes.

Qualifications, professional and academic titles. Graduates shall acquire a *diploma* and a *professional or academic title* determined in accordance with the Professional and Academic Titles Act (*Uradni list RS*, No. 83/03 – official consolidated text). The typical professional title for the graduates of academic study programmes is *univerzitetni diplomirani ...*, while the graduates in technical, teacher training and art studies acquire the title *univerzitetni diplomirani inženir ...*, *profesor ...* and *akademski ...*, respectively. Graduates of medicine, dental medicine, pharmacology and veterinary medicine acquire the professional titles *doktor medicine*, *doktor dentalne medicine*, *magister farmacije* and *doktor veterinarske medicine*, respectively. A graduate of higher professional studies acquires the professional title *diplomirani ...* or *diplomirani inženir ...*. Graduates in post-graduate study programmes acquire the professional title *specialist ...* and the academic titles *magister znanosti/umetnosti* and *doktor znanosti*. All professional and academic titles are published in *Uradni list RS*, Nos 22/99, 33/99, 57/99, 10/00, 12/01, 47/02 and 50/05.

Post-reform study programmes

The Act Amending the Higher Education Act (*Uradni list RS*, No. 63/04) and the Act Amending the Higher Education Act (*Uradni list RS*, No. 94/06) represent the legal framework for the introduction of three-cycle higher education, in accordance with the Bologna declaration. The *first cycle* study programmes are *academic and professional study programmes*. Their duration is determined by years (three to four years) and credit points (180 to 240 CPs). A total of 60 credit points may be obtained per study year, and one credit point is equivalent to 25 to 30 hours of a student's work; there are between 1500 and 1800 hours per year in total. The *second cycle* study programmes are *master's study programmes* (master's professional degree). They consist of between 60 and 120 credit points and last one or two years. The duration of a master's study programme must be planned with regard to the duration of the first cycle study programme. The total duration in the same field of study must not exceed five years (3+2, 4+1). The second cycle study programmes also include *single cycle master's study programmes*. They are formed for studying professions regulated by EU directives or the legislation of the Republic of Slovenia.

not determined differently by EU directives, these programmes are five years in duration and consist of 300 credit points. The *third cycle* is one type of study programme: *doctoral study programmes*. It lasts for three years, and the study requirements consist of 180 credit points, two thirds of which shall be acquired by research. The degrees in all three cycles can be formed as *joint degrees*. Studies are organised on a full- or part-time basis. Higher education institutions may organise and provide *supplementary study programmes* as a form of lifelong learning.

Access requirements. The access requirement for academic and single cycle master's study programmes is the *matura examination*, the *final examination* prior to 1 June 1995, or the *vocational matura examination* plus an *additional examination* for one general *matura* subject. The access requirement for higher professional study programmes is the *matura examination*, the *vocational matura examination* or the *final examination* under the four-year secondary school or equivalent programme. The general access requirement for master's study programmes is the completion of a *first cycle study programme*. The specific access requirements are determined by each study programme. Study programmes from corresponding fields of study must be determined, while candidates who have graduated from other fields of studies are required to acquire between 10 and 60 additional bridging credit points, depending on the difference between the fields of study. The general access requirement for doctoral study programmes is the completion of a *second cycle study programme*.

Transfer. Transfers between study programmes of the same cycle as well as between short-cycle higher education and first-cycle study programmes are possible when certain requirements are met.

Qualifications, professional and academic titles. Graduates are granted the *diploma* and the *professional or academic title* determined in accordance with the Professional and Academic Titles Act (*Uradni list RS*, No. 61/06). The typical professional titles of graduates of first cycle study programmes are *diplomirani ... (UN)* and *diplomirani ... (VS)*. Graduates of the second cycle master's study programme shall acquire the professional title *magister*, while graduates in technical, teacher training and art studies acquire the title *magister inženir ...*, *magister profesor ...* and *magister akademski ...*, respectively. Graduates of medicine, dental medicine, pharmacology and veterinary medicine acquire the professional titles *doktor medicine*, *doktor dentalne medicine*, *magister farmacije* and *doktor veterinarske medicine*, respectively. The completed doctoral study programme results in the diploma and academic title *doktor znanosti*. All professional and academic titles are published in *Uradni list RS*.

Study programmes adopted before the 2004 Act entered into force are gradually running out; the last call for enrolment was published for the 2008/09 academic year; the studies must be completed by no later than at the end of the 2015/16 academic year. Study programmes adopted after the 2004 amendments were introduced gradually; the process was completed by the 2009/10 academic year when exclusively modernised study programmes became available.

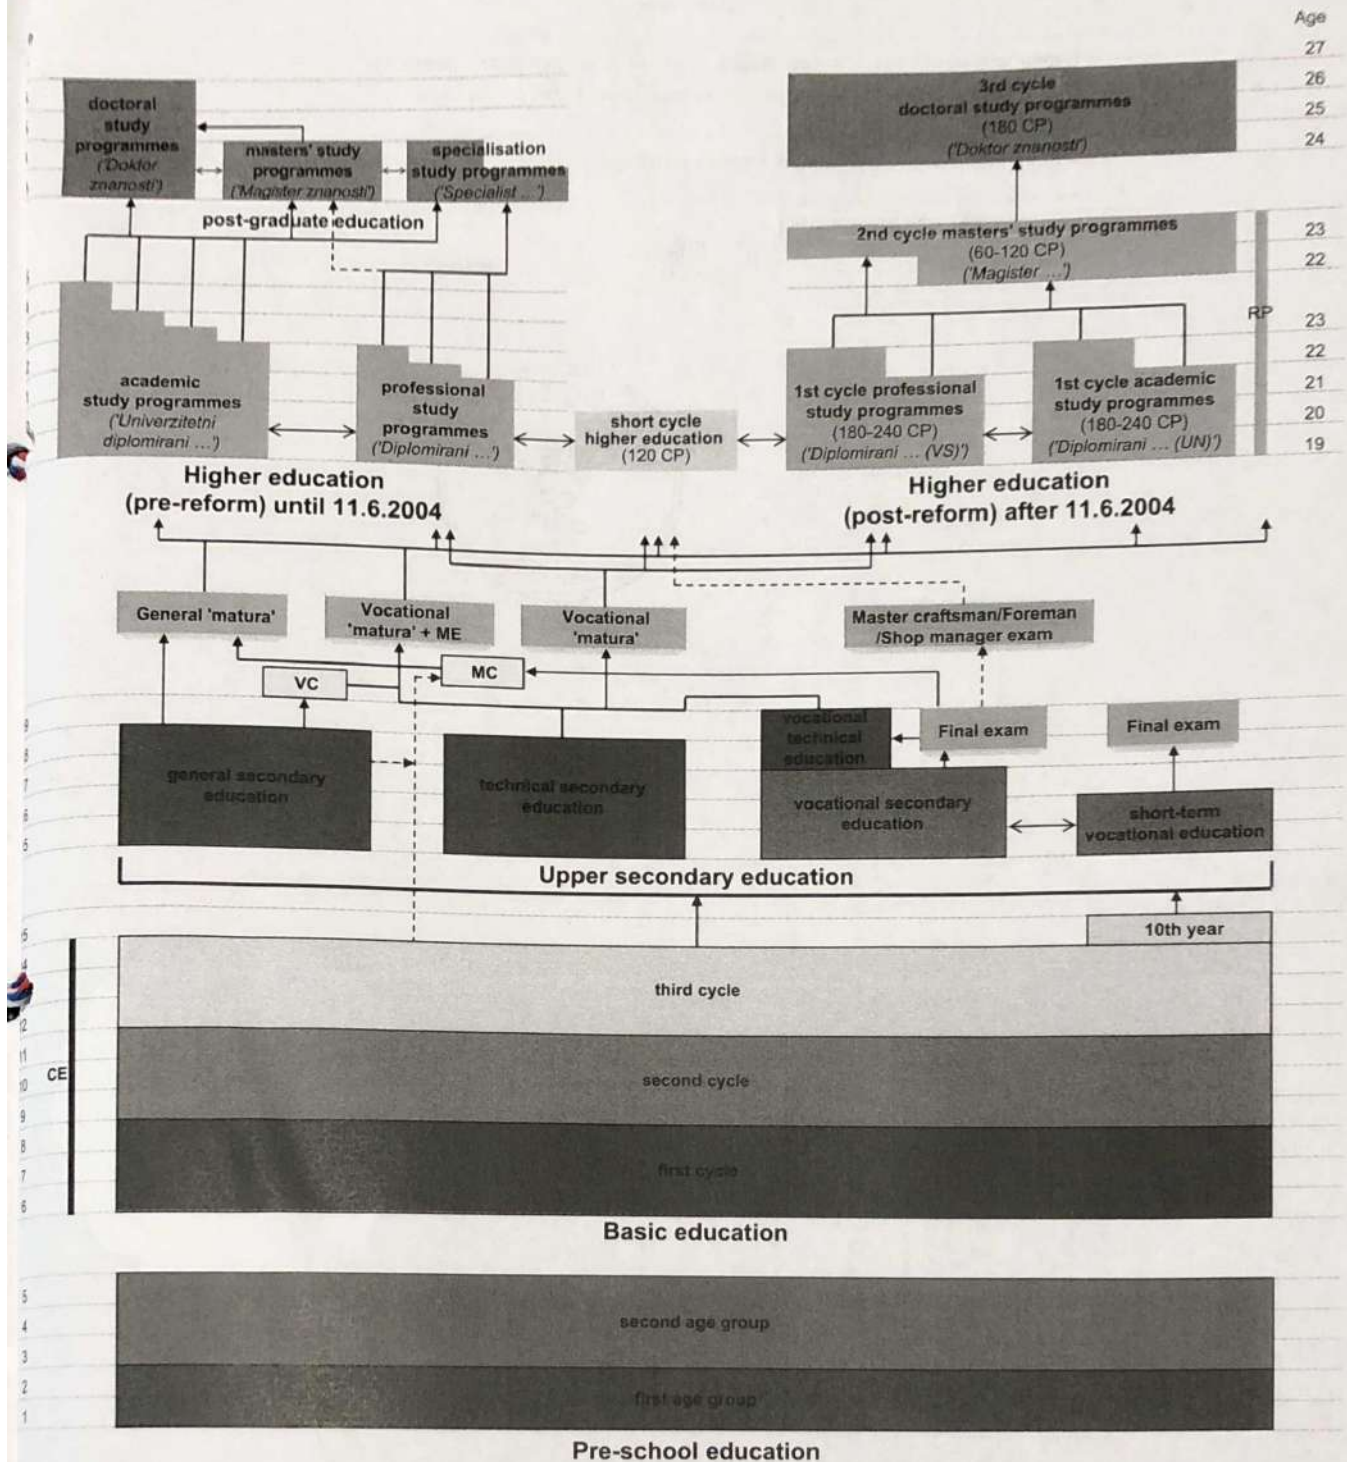

Relations between the pre- and post- reform types of study programmes are stipulated by the Act and the Decree on the Introduction and Use of the Standard Classification System of Education and Training (*Uradni list RS*, No. 46/06), as follows:

Type of study programme pre-reform	Level	Type of study programme post-reform
Professional study programmes	6/2	Professional study programmes (1 st cycle) Academic study programmes (1 st cycle)
Specialisation upon completing professional study programmes Academic study programmes	7	Master's study programmes (master's professional degree, 2 nd cycle)
Specialisation upon completion academic study programmes Master's degrees in science/art	8/1	
Doctoral study programmes	8/2	Doctoral study programmes (3 rd cycle)

Graduates of study programmes adopted before the reform may continue their studies in the second or third cycle study programmes pursuant to the Act Amending the Higher Education Act (*Uradni list RS*, No. 44/06) and Criteria for transferring between study programmes; the criteria are precisely determined by the study programme.

Quality assurance. The quality of higher education institutions and study programmes is ensured through accreditation and internal and external evaluation procedures. The accreditation, prolongement of accreditation and external evaluation of higher education institutions and study programmes is the responsibility of the Slovenian Quality Assurance Agency for Higher Education. Higher education institutions are responsible for internal evaluation procedures.

The Structure of Education in Slovenia

Legenda: CE - compulsory education RP - long non-structured masters' study programmes (e.g. EU regulated professions)
 ← general access ←----- access under certain conditions CP - credit point according to ECTS ('Diplomirani ...') - awarded title
 ↔ possibility of transfer MC - 'matura' course VC - vocational course ME - additional exam in one 'matura' subject
